QUALITY CONTROL

SCAAP Environmental Strengths

- SCAAP completed a PA Act 2 restoration program in 2000.
- The operating contractor achieved ISO 14001 certification in 2001.
- Government and contractor participate in PA’s P2 Roundtable program.
- Elimination of HAPs in coating operation

SCAAP Environmental Projects

- Sealing waste oil pits
- Waste oil collection and reclamation systems
- Conversion to water based forging lubricant
- Navy ESTCP project to develop a bio-treatment system for oily waste

SCAAP Environmental Challenges

- 50 yr old PCB transformers
- Oil contamination beneath installation
- 30 yr old equipment: gas fired furnaces and hydraulic presses
- Continuous improvement of existing processes
