Maryland
Pollution Prevention Partnership

Charter

Mission

We are a voluntary working partnership of federal and state entities within the State of Maryland promoting pollution prevention as the preferred strategy for environmental protection and resource conservation.

Vision

To enhance our respective missions, optimize resources and promote environmental stewardship in the State of Maryland by becoming a nationally recognized, results-driven partnership that promotes and achieves pollution prevention solutions.

Guiding Principles

We will work to foster community well-being, build trust, and achieve state and federal environmental priorities while assuring mission readiness.

Goals

- Make substantive, measurable and sustainable environmental improvements
- Improve communication to discuss issues, share ideas and lessons learned
- Work cooperatively, pooling resources where possible to identify pollution prevention solutions
- Provide a forum for regulatory issues and updates
- Develop and promote pollution prevention training and education opportunities

This Charter is signed on this 25TH day of SEPTEMBER 2002.
